**Dear students,**

**Gain experience abroad, get to know foreign cultures, make new contacts. There are many good reasons for spending time abroad during your studies. Unfortunately, this has been difficult to realise in dentistry up to now. However, there is now the opportunity to establish co-operations with other universities, for example in Switzerland and Italy.**

**However, before these collaborations can be intensified, we need your feedback! The following questionnaire asks about your general interest in stays abroad, what kind of stay abroad would be suitable, which countries would be interesting, etc.**

**The results of this survey form the basis for further action.**

**Thank you for your participation**
