1. Welcome to the evaluation of the project "Impf-Guides"!

Dear students,

Thank you for participating in the "Impf-Guides" project.

We would like to know how you feel about working as an "Impf-Guide":

- What aspects of the project do you think are working well?
- Where do you think there is room for improvement in the project?
- How do you personally benefit from this project?

Your feedback will help us to further develop the "Impf-Guides" project so that future vaccination campaigns can be carried out as effectively and target-group-specifically as possible.

Please allow approximately 20 to 30 minutes to complete the survey. As some of the questions are open-ended, it will take a little longer to answer than standard teaching evaluations.

Your information is anonymous and voluntary. You can cancel your participation at any time.

We look forward to your feedback!

Thank you very much for your participation.

Best regards,
Jan Zottmann and Johanna Huber
Institute of Medical Education
