Appendix 2: Presentation of in- and exclusion criteria

Inclusion criteria

- **I1** Topic area health apps.
- **I2** Health app can be used on smartphone.
- **I3** Publication deals with general evaluation criteria and tools.
- **I4** Health app focuses on support of medication intake/medication in general.

Exclusion criteria

- **E1** No abstract available.
- **E2** No full text available.
- **E3** Health app used primarily for diagnosis, research/information.
- **E4** Health app is directed towards service provider.
- **E5** Language of the publication is not English or German.
- **E6** Publication is a conference paper, review, abstract, a letter, a note.
- **E7** Publication before 2007.
- **E8** Support for taking medications is only a subordinate part of the health app.
- **E9** Mobile use is limited to SMS exchange.
- **E10** Health app is no standalone software, but one that e.g. is a control software for another medical device.

Appendix 3: List of the sources used in the semi-systematic research
